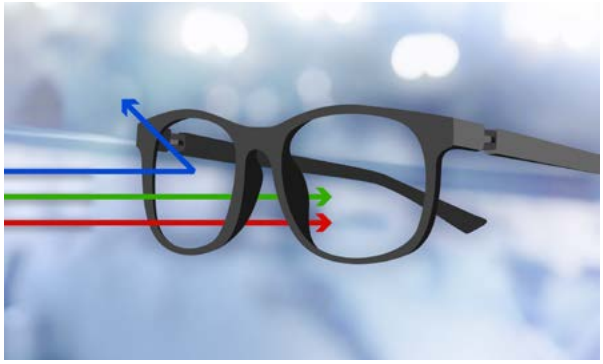
**EN | Blue light filters are not a marketing gimmick but a real hack for greater well-being – especially for those who spend a lot of time in front of screens. Whether it's a laptop, smartphone or TV, all these devices emit harmful blue light. This is precisely where the glasses come into play.**

DE | Blaulichtfilter sind kein Marketing-Gag, sondern ein echter Hack für mehr Wohlbefinden – besonders für diejenigen, die viel Zeit vor Bildschirmen verbringen. Ob Laptop, Smartphone oder Fernseher, all diese Geräte strahlen schädliches blaues Licht aus. Und genau hier setzen die Brillen an.

FR | Les filtres à lumière bleue ne sont pas un simple coup de marketing, mais une véritable solution pour un meilleur bien-être – en particulier pour ceux qui passent beaucoup de temps devant des écrans. Qu'il s'agisse d'un ordinateur portable, d'un smartphone ou d'une télévision, tous ces appareils émettent une lumière bleue nocive. C'est exactement là que ces lunettes interviennent.

## 180°

An integrated 180° spring hinge provides maximum comfort and flexibility. The temples open up to 180 degrees, delivering an especially comfortable fit and a secure hold.



## BLUEFILTER

Blue light filter technology reduces harmful blue light, supports a healthy sleep rhythm and can help maintain concentration and performance.
